

**KION**

# Say hello to Clean Protein

## Get ready to rock your recovery, friend.

[Kion Clean Protein is available now!](#)

You've been asking for the cleanest, highest-quality protein powder possible, and this all-new addition to the Kion fam delivers.

Each serving of this superior quality whey isolate is packed with 20 grams of complete protein to help you:

**Build muscle\***

**Gain strength\***

**Enhance recovery\***

And when we say superior quality, we mean it. Kion Clean Protein is:

- Grass-fed
- Virtually lactose-free
- Low-carb & low sugar (less than 1g each)
- Non-GMO, antibiotic- and growth hormone-free
- Tested for toxins like mold, bacteria, and heavy metals

Clean Protein is available in two delicious flavors (plus unflavored for the purists out there). Whether you go with Rich Chocolate or Smooth Vanilla, helping those muscles recover will feel *and* taste like a piece of cake.

If you're ready to say goodbye to chalky, low-grade protein powders and hello to the cream of the crop...
